Petition to Protect Community Rights and Oppose the Atlantic Sunrise Gas Pipeline

We, the undersigned, oppose construction of the proposed Atlantic Sunrise pipeline that would cut a new industrial 100 ft. right of way across 5 townships in Schuylkill County and beyond. We urge that our elected officials and representatives' work with us to protect the health, property values and safety of the residents of our community from the potential hazards associated with this high pressure natural gas project. **We urge our leaders to oppose the Atlantic Sunrise Pipeline, pass a resolution, weigh in with concerns on the FERC docket, pass strong ordinances, and apply all other pressure necessary to protect Schuylkill County families.**
