

Important Hotline & Community Contacts for Citizens Monitoring of the Jacobs Creek Pipeline Relocation Project

Citizen monitors and landowners can make a difference! Community watchdogging and monitoring is an essential component to holding companies accountable when regulators give them permission to impact communities to build gas infrastructure. Local people know best the habitats, trout streams, farmlands, and backyards at risk. For decades, community volunteer monitors have safeguarded their local communities, esp. in light of agencies with limited budgets and lack of enforcement staff.

The Jacobs Creek Pipeline Relocation Project involves an exposed length of pipeline within the Jacobs Creek bed that is to be removed and replaced. The replaced section of pipeline will be connected to approximately 2,500 feet of pipeline that will be installed underneath the Delaware River using the process of Horizontal Directional Drilling. The drilling will begin in Upper Makefield Township PA and continue to the New Jersey side of the project in Hopewell and Ewing Townships. Community monitoring for a project like this spanning two states, multiple townships, and multiple agencies requires the vigilance of our citizen monitors.

This document includes numbers to call for PA and NJ. In your local community, please document pipeline activities when you see them. Take photos with your smart phone (with geo-tag setting on so your location is noted), and a good camera with zoom also very helpful. Put your observations in writing, include the date if you can, so there is a record to agencies. Call your local community organizations if you need more help to document what you are seeing. Do not trespass, stay safe and do not interfere with workers or construction activity; stay off the active construction Right-of-Way (ROW). If you believe there is a **true emergency at risk**, call 911.

Delaware Riverkeeper Network Contacts For Urgent Happenings or Questions

Faith Zerbe, *Water Watch Director*: 215-369-1188 ext. 110; faith@delawariverkeeper.org

Tracy Carluccio, *Deputy Director*: 215-369-1188 ext. 104; tracy@delawariverkeeper.org
