Requestor Information – Please Print

First Name ___________________________ Middle Initial ___________ Last Name ___________________________

E-mail Address ___________________________

Mailing Address ___________________________

City ___________________________ State ___________ Zip ___________

Telephone ___________________________

Preferred Delivery: Pick Up ______ US Mail ______ On-Site Inspect ______ Fax ______ E-mail X

If you are requesting records containing personal information, please circle one: Under penalty of N.J.S.A. 2C:28-3, I certify that I HAVE / HAVE NOT been convicted of any indictable offense under the laws of New Jersey, any other state, or the United States.

Signature ___________________________ Date ___________

Payment Information

Maximum Authorization Cost $ ___________________________

Select Payment Method

Cash ______ Check ______ Money Order ______

Fees: Letter size pages - $0.05 per page
Legal size pages - $0.07 per page
Other materials (CD, DVD, etc) - actual cost of material

Delivery: Delivery / postage fees additional depending upon delivery type.

Extras: Special service charge dependent upon request.

Record Request Information: Please be as specific as possible in describing the records being requested. Also, please note that your preferred method of delivery will only be accommodated if the custodian has the technological means and the integrity of the records will not be jeopardized by such method of delivery.

The Delaware Riverkeeper Network requests electronic PDF copies of all documents submitted to the New Jersey Water Supply Authority by Sunoco regarding the Jacobs Creek Pipeline Project including construction schedules, construction dates, construction meetings, correspondences and emails and meeting minutes related to this project received by the New Jersey Water Supply Authority between October 20 and present.
Paul/Ed,
Confirmed, HDD start planned for Wednesday Nov 2nd. I'll be on-site on Wednesday and can meet with Jeremy to introduce folks and review project specifics.

Thank you
Dan

Ed,

We would want to be on site for a day once the HDD pilot hole is under the Delaware River and into rock to observe drilling and to compare to when the bore crosses under the canal. Then, we would want to be on site when the bore crosses under the canal, and then also when the reamer crosses back under the canal.

It would also be good to have any daily/weekly reports they are preparing for us to refer to.

Did the drilling start today? Is it possible to have daily/weekly updates/reports so we can forecast our visits to the site?

Thank you.

Per our phone conversation yesterday afternoon I have attached the only schedule that I have right now. This schedule can be used for the duration of each aspect of the drill once the drill has started. The schedule will be update and shared with you once the HDD starts. I have also included the contact list for the field work. The list has the name, company names, position of the person, contact phone numbers and email address. Also you requested the cross streets for the work site on the Pennsylvania side of the project they are River Road and Oakdale Ave. If you need anything else just give me a call or email me.

Sunoco is hoping to start the HDD for Jacobs Creek Pipeline Relocation Project on Friday of this week. They are currently finishing the installation of the casing pipe. I wanted to give you as much notice as possible so you can coordinate with your outside engineering firm Schnabel. I will give you a call on Thursday afternoon to let you know if they have completed the casing installation and plan to start drilling on Friday. Please give me a call to discuss this if you have any questions.

No not yet they are pulling the casing back a bit to keep the proper angle. They think they hit the rock. The are hoping to start drill once the casing is adjusted and verified. I will find out when they think this will happen and get back with you.

Paul

Sunoco is hoping to start the HDD for Jacobs Creek Pipeline Relocation Project on Friday of this week. They are currently finishing the installation of the casing pipe. I wanted to give you as much notice as possible so you can coordinate with your outside engineering firm Schnabel. I will give you a call on Thursday afternoon to let you know if they have completed the casing installation and plan to start drilling on Friday. Please give me a call to discuss this if you have any questions.

Thank you
Edward J Weirsky Jr (Ed)
STV Inc
Sr. Project Manager
