Paul

Attached please find the 48 hour notice to proceed for Sunoco's Jacobs Creek Pipeline Relocation Project. The contractor did find the required form in his truck so we were able to fill it out and send it to you. They did fax it to your office yesterday from the hotel they are using as an office to Pennsylvania but I know you requested it be sent to you via email. The contractor is not planning on doing any work on the New Jersey side until later next week but we wanted to get the notice into you. I will forward you a contact list for the project with names, cell numbers and emails addresses once it is finalized. It should be later today or tomorrow. If you have any question please just give me a call.

Thank you

Paul

Sunoco is in the process of creating a phone notification list for the project and I would like to include your phone contact information. We will be starting this project in PA first with the contractor moving in this week. It looks like they plan on starting on the NJ side in about two to three weeks. I will make sure they contact you via email at least 48 hours prior to starting any soil disturbance in NJ. I look forward to working with you again.

Thank you
